

CONSTRUCTION NOTICE

CSAH 22
Goodview Ave. to CSAH 36
C.P. 13-22-19
Pavement Preservation Project

Contractor: DUSTROL, INC.
P.O. Box 309
1201 E. Main
Towanda, Kansas 67144

Where:

- On CSAH 22, from CSAH 36 to CSAH 30 located in Chisago City and Wyoming City limits.

What:

- Hot in place Recycle Bituminous Resurfacing, Chip Sealing and Permanent Pavement Markings.

The highway will undergo 2 phases:

Phase 1 will consist of a process called hot in-place recycling (HIR).

This will involve heating up the top 3 inches of the road, applying a rejuvenating agent, mixing, and compacting the recycled material to a uniform grade. This is all done by a long “train” of equipment. They will do one side of the road at a time. Once phase 1 has been completed and the road is allowed to cure, a chip seal application (Phase 2) will be placed over the HIR. This is an application of a special protective wearing surface, where a thin layer of liquid asphalt is sprayed down prior to placing a uniform layer of chips (rock). After that, the road will be striped.

When:

- Project beginning June 3rd
- Estimated completion date: July 3rd.

Traffic impacts and what to expect:

- Please take care while driving through the project area.
- Day time work only, please note that the work is weather permitting and subject to change.
- The project will be done under traffic with no road closure.
- Construction Signage will be posted prior to and during construction.
- Watch for traffic control, pilot cars, and Flag Person's.
- Access to homes and businesses will be maintained at all times.
