

PUBLIC OUTREACH AND AWARENESS

Each year, the Chisago Lakes Lake Improvement District (LID), along with area Lake Associations, participate in various community events. An informational, interactive booth is staffed by Board members, employees, community and Lake Association members at the events.

Residents in the community visit the booths and learn about the LID and the many projects they are involved in and have completed, many in collaboration with area Lake Associations and the Chisago Soil & Water Conservation District (SWCD).

Staff also provided presentations to the Chisago Lakes Chamber of Commerce and Rotary Club on LID projects and collaboration with the Chisago SWCD.

Community Events Attended in 2016:
